THE DOCTOR TAKES A LOOK AT YOUR COLON AND IF THERE'S A POLYP ● IT'S REMOVED BEFORE IT TURNS INTO CANCER.

Now you know how you can prevent colon cancer.

If you're 50 or older, talk to your doctor about getting tested for colon cancer.
For a free information packet on the different ways you can be tested, call 1-800-ACS-2345 or visit www.cancer.org/colon.
