[1] This table includes Ohio residents who died due to unintentional drug poisoning (primary underlying cause of death X40-X44).

[2] **Sources:** Ohio Dept. of Health, Center for Public Health Statistics & Informatics in partnership with the Violence and Injury Prevention Program; and US Census Bureau (population estimates)

* Rate suppressed if < 10 total deaths for 2006-2010; may be unreliable.

** Differences between annual county numbers and rates should be interpreted with caution due to small number issues.
