

Population Coverage within a 60 Minute Drive Time Around Stroke Capable Hospitals, July 2013

	Certified Stroke Center
	Telestroke Spoke Hospital
	Interstate
	60 Minute Drive Time

Using the network analysis feature of ArcGIS along with the population weighted centroids of block groups enabled the calculation of drive time areas. Only a few very small areas in southeast Ohio were not within a 60 minute drive time of a stroke capable hospital. At the time of publication, 99.95 percent of Ohioans lived within a 60 minute drive time of a stroke center or telestroke spoke hospital.

Notes: Certified and Spoke hospitals as of July 15, 2013
