

Worthington Industries

Worthington Industries is proud to support the Ohio Department of Health and the Healthy Ohio Business Council. Worthington has a strong history of providing health and wellness programs for employees and their families through our on-site Medical and Wellness Center, pharmacy and fitness center. I know there is still much to be accomplished to further improve the health of our employees and employees across the state of Ohio.

The Healthy Ohio Initiative is a positive step forward in helping Ohioans improve their health, benefiting not only individuals and their families, but businesses as well. Healthy employees are happier, more productive and experience lower healthcare costs. Worthington Industries is proud to help lead this effort as we have experienced the benefits of an increasingly healthy workforce. I commend the Ohio Department of Health for making this Initiative a priority, as it will have a direct impact on improving the quality of life of Ohioans. On behalf of the 3,500 Worthington Industries employees in Ohio, I'm proud to represent our company on the Healthy Ohio Business Council.
