

YMCA of Central Ohio

For nearly 150 years, the YMCA of Central Ohio has been committed to building strong kids, strong families and strong communities. Today with its eleven full facility branches, two outdoor centers and over 50 child care sites, the YMCA of Central Ohio is able to address the health and wellness needs of men, women and children of all ages, socio-economic, racial and cultural backgrounds within our growing communities. Through our mission to serve the whole community, the YMCA of Central Ohio provides an environment to support central Ohio families with childcare, pre-school, social development, physical fitness, recreation, health and wellness, and youth and family programs.

We are pleased to support the work of Healthy Ohio and the Ohio Department of Health and to be a partner in the Healthy Ohio Initiative. This important initiative will strengthen our priority and commitment to ourselves, our families and to our community and enable us to have an impact in encouraging Ohioans to make healthy lifestyle choices. On behalf of the YMCA of Central Ohio, I am proud to represent our Association on the Healthy Ohio Business Council.
