

Dear Lisa,

On behalf of the Ohio Injury Prevention Partnership (OIPP), I am pleased to inform you that you have been selected as a recipient of the 2013 Ohio Injury Prevention Partnership's Champion Award. The Champion Award is presented to an individual who has advanced injury prevention in Ohio through the promotion of policies and evidence-based interventions at the state, local or organizational level. Dr. Randall L. Schlegel was proud to nominate you for this award.

The selection committee was impressed with your dedication to promoting policies aimed at reducing unintentional overdose deaths. In particular, the committee was pleased with your commitment to policies and programs aimed at promoting naloxone distribution and shuttering Ohio's "pill mills". Your personal leadership, hard work and vision are helping to ensure not only an injury free Ohio but also serving as an important inspiration for others.

It is our pleasure to invite you to come and receive your award at the OIPP's Annual Meeting on Thursday, November 14<sup>th</sup> from 10 am – 1 pm at the Ohio Center for Occupational Safety and Health in Pickerington (<http://www.ohiobwc.com/downloads/brochureware/directions/dshocosh.pdf>). While the meeting lasts until 1pm, the awards will be presented between 10 and 11 am. If you are able to attend, please RSVP to Cameron McNamee ([Cameron.mcnamee@odh.ohio.gov](mailto:Cameron.mcnamee@odh.ohio.gov)) by November 8<sup>th</sup>.

On behalf of the more than 200 members of the OIPP, I would like to thank you for your dedication to promoting policies to reduce prescription drug misuse, abuse and overdose.

Sincerely,

*Denise Franer RN*
