

PATHWAYS IN PREVENTION

First Five Years

MEN & YOUTH

Engaged youth across Ohio through curriculum development & Youth Councils

Built a community of men committed to promoting healthy relationship & preventing SV/IPV

Identified promising practices in local communities

CAPACITY

Centralized data collection for evaluation of primary prevention efforts

Technical assistance provided to prevention community

IPV/SV Primary Prevention trainings given to colleges & professional associations

- 

Strategic Direction one & four achieved five year objectives
- 

Empowering local communities is ongoing work
- 

Still need to evaluate change in public knowledge of IPV/SV

CAUTION, DON'T YIELD!

While some strategies have changed over time, the overall goals remain the same. Progress has come easier for some more than others.

WE CONTINUE TO...

IDENTIFY RESOURCES
PROVIDE TRAININGS
STRENGTHEN COMMUNITY PARTNERSHIPS
