

Anthem Blue Cross and Blue Shield

At Anthem, our mission is to improve the health of the people we serve. We believe that supporting healthy lifestyles is important for both our members and our associates. We make that commitment real for our members through our focus on disease management and wellness initiatives and through programs that support the community. We make this commitment real for our own associates by providing fitness centers and numerous health and wellness programs that help them lead healthy lives.

That's also why we are so proud to be a part of the Healthy Ohio Business Council. Initiatives such as this one help spread the message of the importance of health and wellness opportunities directly to business leaders in the community.

We are all aware of the health care challenges facing Ohio residents. We applaud the Ohio Department of Health for addressing these issues head on.

On behalf of the nearly 5,000 Anthem associates working in Ohio, thank you for the opportunity to be a part of the Healthy Ohio Business Council.
