

Grange Insurance

At Grange Insurance, we place a strong emphasis on the health of our associates. Grange provides all associates access to an onsite fitness facility, nurse and nutritionist. We offer several workplace programs dedicated to associate wellness, including weight training, aerobics, yoga and Weight Watchers. For any of these classes, we offer associates a \$100 rebate each year. We are also a non-smoking company and pay for our associates to attend smoking cessation programs or seek medical assistance.

We are pleased to serve on the Healthy Ohio Business Council and support its mission to encourage all Ohio businesses to make employee wellness a priority. The top five causes of death in Ohio can be directly linked to lifestyle choices such as smoking, diet and exercise. Initiatives such as Healthy Ohio can make a direct impact on the lives of Ohioans, and Grange is proud to be a leader in educating and encouraging associates to make wise personal health decisions.
