8. Number of open PHBPP cases- 23
9. Number of hospitals with births in your county/ city- 4
10. Resources available at my LHD: VFC Immunization Clinic, Prenatal Clinic
11. Brief description of how I do follow-up: Notified of case per ODH or communicable disease reporting system. I provide both communicable disease and PHBPP case follow-up and management. Contact is made with care providers for pregnancy confirmation, EDC and birthing hospital. ODRS is entered and updated; ODH is notified of the case. Per procedure, letters are sent to the case for introduction to the PHBPP. Follow-up phone contact is made to establish roster of household and sexual contacts. Additional letters are sent to contacts as needed to facilitate serology and vaccination. Upon notification of infant's birth, follow-up is done with case and pediatrician to confirm receipt of HBIG and Hep B vaccines as scheduled. Case management will continue for infant until vaccine series is completed and serology has been done.
