What is Ohio ImpactSIIS?

ImpactSIIS is an online statewide immunization management and registry system. **ImpactSIIS** serves as an interactive computer program for forecasting, administering, ordering, and tracking vaccinations for the people of Ohio. It was developed to achieve complete and timely immunizations for all Ohioans.

ImpactSIIS provides an accurate, efficient way to ensure that children and Ohioans of all ages receive the right vaccinations at the right times without unnecessary repetition.

It is our goal to provide accurate, up-to-date information on immunization and vaccinations so health care providers, parents, schools and other stakeholders can achieve the highest level of coordination and knowledge for a healthier, safer Ohio.

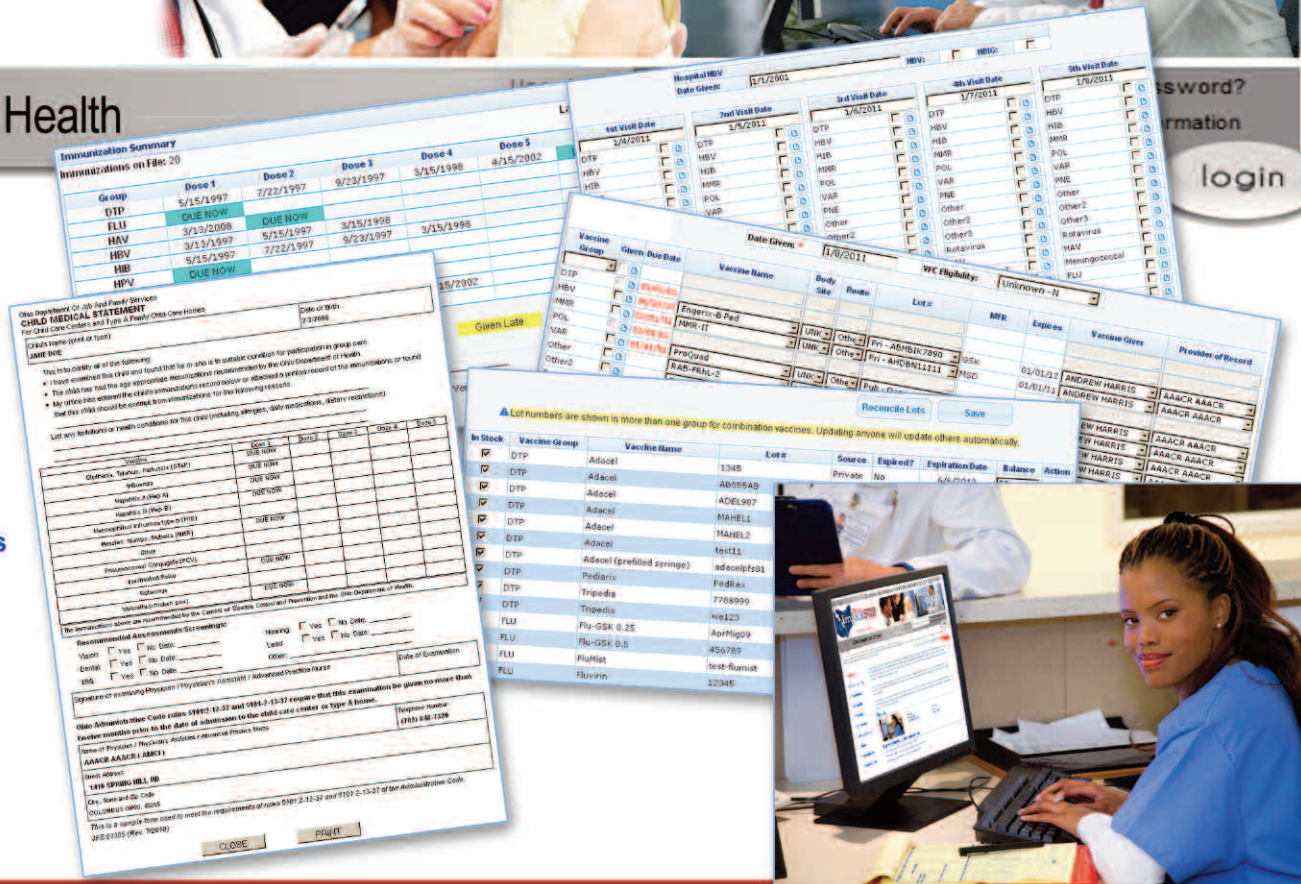
Join ImpactSIIS today and start enjoying the benefits of membership . . .

- Immunization data from providers across Ohio
- Due dates for upcoming immunizations
- Patient reminder notices
- Forms for school, childcare and camp
- Online bulletin board with recalls and protocols
- Data from birth certificates and public health clinics
- Document storage for VFC and HEDIS
- Reporting of immunization status and more
- Vaccine lot management
- Third party provider submissions
- EMR interface compatibility
- Staffed help desk & instructional videos
- No installation required to your PC



Track your vaccine supply • Order public VFC vaccines • Build immunization reports • Print childcare forms

- **Save money with ImpactSIIS**
  Processing an immunization record by hand costs nearly $15 in time and effort — more than three times the cost of using an online registry. ImpactSIIS keeps your data in a safe, central location so you can access it quickly when you need it. And it's **FREE.**

- **Avoid unnecessary vaccinations**
  About 20 percent of children in the U.S. receive at least one unnecessary dose of vaccine by age 2. Let **ImpactSIIS** track your patients' immunizations across Ohio to help ensure they get only the vaccinations they need.

- **Help build a robust immunization database**
  When you use **ImpactSIIS**, your immunization data helps create a complete and accurate picture of immunization rates in Ohio.
