

## OHIO DEPARTMENT OF HEALTH

### Approvals of Drip Distribution Assurances & Operation & Maintenance (O&M) Information

The Ohio Department of Health (ODH) Drip Distribution Assurances approval process is intended to ensure the treatment and dispersal benefits of drip distribution are achieved and maintained. Drip distribution for sewage treatment systems (STS) must provide timed micro-dosed equalized pressure distribution and comply with [rule provisions applicable at time of approval](#). ODH has determined that the following drip distribution assurance parties have established the support system necessary to assure the proper siting, design, installation, monitoring, and maintenance of drip distribution systems.

Site-specific drip distribution system design plans must be reviewed and approved by local health districts in accordance with local site review and permitting provisions. Plans must contain adequate detail to allow local health district determination of compliance with drip distribution assurance requirements.

**The owner of a drip distribution STS is required to maintain an operation and maintenance (O&M) service contract.** The O&M and monitoring of the entire STS shall be conducted at least annually, or more often as required by the assurance party or the manufacturer of any component of the drip distribution STS, and shall be conducted by the assurance party acting as a registered service provider or by a registered service provider who has been qualified by the assurance party.

Approved Drip Distribution Assurances are subject to ODH review for compliance with the conditions of approval and applicable law and rules. A review may be conducted when there is evidence of noncompliance with approval conditions or for other reasons deemed necessary to assure compliance. Upon review, if there is a determination of noncompliance, a drip distribution assurance party may be removed from the approved list in accordance with Chapter 119 of the Ohio Revised Code.

<b>Drip Distribution Assurance Parties</b>	<b>Date of Approval</b>	<b>Owner O&amp;M Information</b>
<b>Active Wastewater Systems, Inc.</b> P.O. Box 1101 Sunbury, OH 43074 Phone: 614 889-1409	March 20, 2007	<a href="#">Active Wastewater O&amp;M</a>
